

Village of Sand Lake

December 2025

Presidents Report

Over the past month, the Village has focused extensively on matters related to the fire department. Much of this work was discussed during our Town Hall meeting on December 4th.

It is unfortunate that, despite efforts over the past two years, the surrounding townships were unable to reach a unified solution. Nonetheless, I want to assure our residents that, regardless of the direction taken moving forward, the Village of Sand Lake will continue to have reliable fire protection coverage. Ensuring the safety and well-being of our community remains our top priority.

I would like to address the per capita that the Village and Townships are paying for the Fire Department.

2025
Sand Lake \$136.50
Nelson \$26.13
Pierson \$37.42
Ensley \$34.07

Life in the DPW

December 2025 was a busy month for the Department of Public Works as the village faced multiple snow and ice events. Despite some delays in parts for the snowblower, the department's readiness and efficiency ensured that winter operations were carried out effectively. With repairs on the snowblower set to begin, we are prepared to meet the ongoing needs of the community throughout the winter season.

- Conducted plowing and salting on all primary and secondary streets, as well as municipal properties.
- Monitoring of salt inventories was done regularly, and orders were placed to maintain sufficient supply levels.
- Post-storm equipment checks were completed to ensure all vehicles were operational.

Reminders:

Trash pickup is on Thursday mornings.

Next recycling collection is January 15th

Next regular meeting January 19th

DPW

“No parking in any public parking or right of way November 1 through April 1, 2am-6am.”

Continued: If you were to go off the average the last 3 years the Village is paying 5x more than the townships.

Thank you

Mollie Doerr
